

## SCHEDULE 6

Frost Protection Machines (Seasonal)

### Availability

This schedule applies to seasonal frost protection equipment services during March through June of each year. Electrical energy is not available for inter-seasonal use during July through February.

### Character of service

Service to be furnished under this schedule may be either single phase, three phase or four-wire three phase, 60-cycle, alternating current at available phase and voltage.

### Metering

In order to obtain service under this schedule, the frost protection customer must provide proper service entrance facilities permitting the installation of metering equipment to record the energy used.

### Rate

This rate is applicable on a seasonal basis for March through June only. Basic charge is the monthly minimum and is applicable for the entire season.

Basic Charge: \$15.25 per month per meter

Monthly

Demand Charge: \$2.31 per KW for all demands

Monthly

Energy Charge: All KWH @ 2.44¢/KWH

Monthly

Minimum Charge: \$26.95

### Inter-season service -

#### July through February

Electrical energy for frost protection machines is not available for inter-seasonal use for July through February. Electrical energy is only available for seasonal use March through June.

Effective: Jan. 1, 2008

### Additional information

The rates presented on these pages are designed to meet the cost of providing service to each of the customer classes. Decisions on rates to be charged for service are made by the five publicly elected commissioners of Chelan County PUD.

### About this brochure

This brochure lists rate schedules used at Chelan County PUD to determine how much you pay for electrical service. This information is made available to each customer as directed by the federal government under the Public Utility Regulatory Policies Act of 1978. If you have any questions about the rates or their application, please contact your nearest District office.

**This brochure highlights the rates charged to the majority of customers but does not cover all rates charged by Chelan County PUD.** For complete copies of Electric Rate Schedules, contact our Customer Accounting department or visit this Web site: [www.chelanpud.org](http://www.chelanpud.org).

To relate your bill to the appropriate rate schedule, find the number on your statement under the word SCHEDULE and match that with the number on the following pages.

### Tax adjustment

The amount of any tax levied by any city or town in accordance with R.C.W. 54.28.070, of the laws of the State of Washington, will be added to the charges for electricity sold within the limits of any such city or town.

### Service policy

Service under these schedules is subject to the rules and regulations as defined in the District service policies.

### Temporary surcharge

An electric rate surcharge is an additional temporary charge that can be imposed to meet PUD financial obligations. Beginning May 1, 2009 and extending for up to 12 months, PUD commissioners have implemented a 9 percent surcharge on all electric bills.

Commissioners adopted the current surcharge after a series of public meetings in 2008 and 2009 where strategic plans were discussed.

## SCHEDULE 1

Residential Service

### Availability

This schedule is available throughout Chelan County served by the District with the exception of the Stehekin area, and is applicable to service for private residence, apartment, summer home, farm and incidental farm power purposes.

### Character of service

1. Service to be furnished under this schedule may be either single phase, three phase or four-wire three phase, 60-cycle, alternating current at available phase and voltage.
2. Where a portion of a dwelling is used regularly for the conduct of business or where a portion of the electricity supplied is used for other than domestic and incidental farm power, service may be supplied on this schedule, provided the energy used is in accordance with the regulations defined in Item 43 of the District's Utility Service Regulations. If not, energy shall be billed on General Service Schedule 2.
3. Single phase motor installations, no one motor of which shall exceed 7-1/2 hp, may be connected and served through the residence meter under this schedule.
4. All water heating installations and equipment over 10 KW shall be subject to the approval of the District as to type and capacity of heating units, tanks, controls and insulation. The District may, at its option and its expense, install a time switch, carrier current control or other device to limit the hours of service to the water heater. The period or periods each day during which service may be so limited shall not exceed a total of six hours.
5. When more than one residence or apartment is served through one meter, or a Bed and Breakfast with four or more rental rooms, service shall be supplied on General Service Schedule 2.
6. When a metered domestic well serves more than one residence, service shall be supplied under General Service Schedule 2.
7. Temporary service for residential construction shall be supplied under this schedule.
8. Service under this schedule is subject to the rules and regulations as defined in the District's Utility Service Regulations.

### Rate

Basic Charge: \$7.20 per month per meter-single phase  
\$13.35 per month per meter-three phase

Energy Charge: First 1000 KWH per month @ 2.29¢ per KWH  
1001 to 2000 KWH per month @ 2.84¢ per KWH  
Over 2000 KWH per month @ 2.99¢ per KWH

Monthly  
Minimum Charge: \$12.85 per meter

### Rate Discount

1. A rate discount not to exceed \$8.25 per month is available to qualifying low-income seniors 62 years and older and low-income disabled as provided for in State of Washington R.C.W. 74.38.070. The rate discount will not exceed the amount of the monthly bill up to \$8.25 per month and will be applied to one account only.
2. The monthly minimum charge does not apply to qualifying low-income seniors and low-income disabled.

To qualify for the rate discount and waiver of the monthly minimum charge, applicants must provide satisfactory proof of the following:

#### For low-income seniors

1. Age 62 years or older prior to or during the month in which the discount is to apply.
2. Total household income including his or her spouse or co-tenant does not exceed the amount specified in R.C.W. 84.36.381 (5)(b).
3. Ownership or occupancy as head of household residing therein at certain property being served electricity within the District's service area.

#### For low-income disabled

1. Physical disability prior to application.
2. Special parking privileges as defined in State of Washington R.C.W 46.16.381(1)(a) through (f) or a blind person as defined in R.C.W 74.18.020.
3. Household income does not exceed 125% of Federal Poverty Income Guidelines.
4. Ownership or occupancy as head of household residing therein at certain property being served electricity within the District's service area.

Effective: Jan. 1, 2008

## SCHEDULE 2

General Service (Lighting and Power)

### Availability

1. This schedule is available throughout the area of Chelan County served by the District with the exception of the Stehekin area, and is applicable to commercial, small industrial, farm power and multiple-residential light, heat and power customers.
2. This rate is divided into two parts. Part A-2 is secondary metered services and Part B-23 is primary metered customers who own their own transformers and distribution service facilities and have a peak demand

less than 800 KW. Part B-23 applies to existing customers as of April 15, 1994. No new customers will be furnished service under Part B-23.

### Character of service

1. Service to be furnished under this schedule may be either three phase, 60 hertz alternating current at primary voltage or secondary power single phase, three phase or four-wire three phase, 60-cycle, alternating current at available phase and voltage.
2. Temporary service for commercial construction shall be supplied under Part A-2.

### Metering

Where any customer requires service through two or more meters, whether service is of similar or dissimilar class, each meter shall be billed independently.

#### Rate: Part A-2

##### Demand 0-39 KW

Basic Charge: \$16.90 per meter per month-single phase  
\$25.35 per meter per month-three phase  
Energy Charge: All KWHs per month @ 2.48¢ per KWH

##### Demand 40 KW and over

Basic Charge: \$10.20 per month per meter-single phase  
\$15.25 per month per meter-three phase  
Demand Charge: \$2.31 per KW for all demands\*  
Energy Charge: All KWHs per month @ 2.44¢ per KWH

Monthly

Minimum Charge: \$26.95

#### \*Demand Calculation 40 KW and over

If a customer has reached or exceeded 40 KW of demand in the previous 11 monthly billing periods, all KWs shown for the present read will be billed at \$2.31 per KW. If the customer has not reached or exceeded 40 KW in the previous 11 monthly billing periods or the present read, billing will be at the Demand 0-39 rate.

#### RATE: Part B-23

Basic Charge: \$14.85 per month per meter  
Demand Charge: \$2.25 per KW for all demands

Energy Charge: All KWHs per month @ 2.10¢ per KWH

Monthly  
Minimum Charge: \$26.25

### Power factor

Service under this schedule is subject to Power Factor Schedule 24 as defined in the District's Electric Service Regulations.

Effective: Jan. 1, 2008

## SCHEDULES 3, 30 and 33 and SCHEDULE 4

Primary Power Service

### Availability

Schedules 3, 30 and 33 apply to customers with average electrical loads from 0.4 annual average megawatts (aMWs) up to and including 5 annual aMWs, and are available throughout the District's service area with the exception of the Stehekin area. Service under Schedule 3/30/33 may require a power sales contract between the customer and the District prior to connection of service.

Schedule 4 applies to customers with electrical demands above 5 annual average megawatts (aMWs) and is available throughout the District's service area with the exception of the Stehekin area. Service under this schedule will require a power sales contract between the customer and the District prior to connection of service that will identify special circumstances and conditions applicable to the customer's energy needs.

For information about these schedules, contact our Customer Service Department at 661-4343.

Effective: Jan. 1, 2008

## SCHEDULE 5

Irrigation Service

(Available Phase and Voltage)

### Availability

This schedule applies to seasonal irrigation pumping power during May through October of each year and incidental inter-seasonal service for domestic, stock and spray water pumping power during November through April in any single permanent pumping installation, including lighting essential to the pumping operation. For such lighting service, the customer will furnish the transformer and other necessary equipment.

### Character of service

Service to be furnished under this schedule may be either single phase, three phase or four-wire three

phase, 60-cycle, alternating current at available phase and voltage.

### Metering

The irrigation pumping customer must provide proper service entrance facilities permitting the installation of metering equipment to record the energy used.

### Determination of load

1. Demand Charges and Season Monthly Minimum Charge on single motor pumping installations and multiple motor pumping installations of a total of 10 hp or less shall be based on not less than the rated nameplate capacity of the motor(s).
2. Demand Charges and Season Monthly Minimum Charge on multiple motor pumping installations with a total nameplate capacity of 10 hp or greater shall be by demand meter.
3. Installations of less than 1 hp will be billed as 1 hp installations.
4. The KW demand read obtained from the demand meter will be multiplied by a factor of 1.34 to show the peak horsepower capacity used during the billing period.

### Rate - All Pump Installations

Irrigation Season - May through October

Basic Charge: \$9.15/meter/month-single phase - May through Sept.  
\$14.05/meter/month-three phase - May through Sept.

Monthly

Demand Charge: \$3.52 per horsepower per month-May through Sept.

Monthly

Energy Charge: 1.43¢ per KWH - May through October

Season Monthly

Minimum Charge: \$4.55 per horsepower per month-May through Sept.

### Inter-season service - November through April

Available between irrigation seasons for incidental uses, provided service is delivered at the same point of delivery and through the same facilities used in supplying regular irrigation service. The rate for energy usage is 3.227¢ per KWH. No demand charges apply to the inter-season rate.

Effective: Jan. 1, 2008
