

# CYCLE OF PERSONAL OWNERSHIP

OCTOBER 2024 WINNER

CHELAN COUNTY

# JANE ROHMAN

Jane's coordination and execution of the recent EAP tabletop and functional exercises performed in September was outstanding.

From Brian Odell:

The tabletop involved 58 participants from the Mid-C and Corps utilities as well as other outside agencies, and the functional exercise involved 78 participants from 17 different agencies. The effort Jane put into these exercises was instrumental in their success and earned high marks and reviews from the participants. Moreover, the amount of learning that took place was enlightening for internal and external entities and will result the updating of EAP's for several of the participants to meet internal and public notification needs.

I can't stress enough that the success in a large part stem from Jane's dedication to the EAP process and the continual learning environment she fosters and promotes. The District and its partners are lucky to have the level of commitment Jane possesses in real time operations as well planning for the future.
